INDEPENDENT ACCOUNTANT'S REVIEW REPORT

The Board of Commissioners
 Greater Krotz Springs Port Commission
 Krotz Springs, Louisiana

We have reviewed the accompanying financial statements of the business-type activities of the Greater Krotz Springs Port Commission as of and for the years ended June 30, 2014 and 2013, which collectively comprise the Greater Krotz Springs Port Commission's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management of the Greater Krotz Springs Port Commission. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

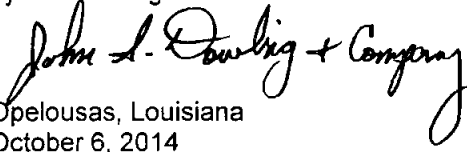

The management of the Greater Krotz Springs Port Commission is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

In accordance with the Louisiana Governmental Audit Guide and the provisions of state law, we have issued a report, dated October 6, 2014, on the results of our agreed-upon procedures.

Management has omitted the management's discussion and analysis information that is required to be presented for purposes of additional analysis. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The results of our review of the basic financial statements are not affected by this missing information.

NOTES TO FINANCIAL STATEMENTS

GREATER KROTZ SPRINGS PORT COMMISSION
KROTZ SPRINGS, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014 and 2013

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Greater Krotz Springs Port Commission was created as a political subdivision of the State of Louisiana by the Louisiana State Legislature under the provisions of Louisiana Revised Statute 34:1451-1456. The Port Commission has the power to regulate the commerce and traffic in St. Landry Parish in such a manner as may be best for public interest; and it is empowered to own and have charge of, to administer, construct, operate and maintain wharfs, warehouses, landings, docks, sheds, belt and connection railroads, shipways, canals, channels, slips, basins, locks, elevators and other structures and facilities necessary and proper for the use and development of the business of the area under its control.

The Port Commission is governed by a board of commissioners, consisting of eleven members appointed as follows:

1. Three members by the St. Landry Parish Government
2. Two members by the City of Opelousas
3. Two members by the City of Eunice
4. Two members by the Town of Krotz Springs
5. Two members by the St. Landry Parish Municipal Association

The Port's office is located in Krotz Springs, Louisiana, and employs two administrative personnel. The Port's operations are funded entirely through annual self-generated revenues.

The accompanying financial statements of the Greater Krotz Springs Port Commission have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of certain significant accounting policies and practices of the Greater Krotz Springs Port Commission:

A. FINANCIAL REPORTING ENTITY

The Port is reported as a stand-alone entity as defined by GASB Statement No. 14, "The Financial Reporting Entity." The Port is neither fiscally dependent on any other local government, nor does it provide specific financial benefits to or impose specific financial burdens on any other government. No other potential component units meet the criteria for inclusion in the financial statements of the Port.

B. BASIS OF PRESENTATION

The Division of Administration of the State of Louisiana has determined that the Greater Krotz Springs Port Commission is a primary government and not a component unit or agency of the State of Louisiana for financial reporting purposes.

JUNE 30, 2014 and 2013

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. MEASUREMENT FOCUS / BASIS OF ACCOUNTING

Measurement Focus

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. The proprietary fund of the Port utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied. All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Port's enterprise fund are charged to tenants for the use of the facilities. Operating expenses for enterprise funds include the cost of maintaining the facilities, administrative expenses, and depreciation on capital assets. All revenues not meeting the definition are reported as non-operating revenues and expenses.

D. CASH AND INVESTMENTS

The Port defines cash and cash equivalents as follows:

Cash equivalents – includes all short term, highly liquid investments that are readily convertible to known amounts of cash and are so near their maturity that they present insignificant risk of changes in value because of interest rates. Generally, only investments which, at the day of purchase, have a maturity date no longer than three months qualify under this definition.

For the purpose of the statement of cash flows, "cash and cash equivalents" include all demand, pooled cash account, and certificates of deposit with an original maturity of three months or less.

E. RECEIVABLES

Receivables consist of all revenues earned at year-end and not yet received.

F. INVENTORIES

Inventories for supplies are immaterial and are recorded as expenses when purchased.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014 and 2013

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. CAPITAL ASSETS

All fixed assets are valued at historical cost. The Port maintains a threshold level of \$500 or more for capitalizing capital assets. The costs of normal maintenance and repairs that do not add to the value of that asset or materially extend the life of that asset are not capitalized.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statements of Revenues, Expenses, and Changes in Net Position, with accumulated depreciation reflected in the Statements of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	30 Years
Wharfs and docks	30 Years
Road and road improvements	30 Years
Mooring dolphin	5 Years
Furniture and equipment	5 Years

H. COMPENSATED ABSENCES

Employees can accumulate up to 400 hours of sick leave; however, no payment is made for accrued and unused sick leave upon termination or retirement. Two weeks of annual leave is earned by each employee; however, any unused portion lapses at the end of the fiscal year.

I. EQUITY CLASSIFICATIONS

Equity is classified as net position and displayed in three components:

1. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
2. Restricted net position – Consist of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
3. Unrestricted net position – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it's the Port's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. LEASE REVENUES

The Port's revenues include the leasing of land and improvements under cancelable operating leases. The leases are accounted for using the operating method whereby the amount of revenue recognized in each accounting period is equivalent to the amount of rent receivable according to the provisions of the lease. Unearned lease revenues consists of prepaid lease payments.

K. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

L. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

The Greater Krotz Springs Port Commission does not provide any post-employment benefits to retirees other than pension and therefore is not required to report under GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions.

NOTE (2) - CASH AND INVESTMENTS

Louisiana statutes authorize the Port to invest in United States bonds, treasury notes or certificates, time certificates of deposit in state and national banks, or any other federally insured investment.

The carrying amount of the Port's cash and investments at June 30, 2014 and 2013, respectively, was \$3,548,928 and \$3,427,834. The bank balance of cash was \$58,248 and \$48,406 and of investments was \$3,492,061 and \$3,391,976 at June 30, 2014 and 2013, respectively. Investments are stated at cost or amortized cost, which approximates market. Investments consist of time certificates of deposit and direct investment in the Louisiana Asset Management Pool (LAMP). Cash and certificates of deposits are fully secured through the pledge of bank-owned securities or federal deposit insurance. Investments in certificates of deposit at June 30, 2014 and 2013, respectively, were \$3,200,000 and \$3,100,000. The Louisiana Asset Management Pool (LAMP) is a cooperative endeavor designed to create a local government investment vehicle. The cooperative endeavor was created at the initiative of the Louisiana State Treasurer's Office. With investment advice provided by a professional investment manager and custody of the assets maintained by a major Louisiana bank, LAMP has been established to improve administrative efficiency and increase investment yield for all depositing members. Investment in LAMP at June 30, 2014 and 2013, respectively, was \$292,061 and \$291,976. LAMP is currently rated AAAM by Standard & Poor's Ratings Services.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the Port's deposits may not be recovered or will not be able to recover collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law these deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

NOTE (2) - CASH AND INVESTMENTS (Continued)

At June 30, 2014 and 2013, respectively, \$458,248 and \$848,406 of the bank balance was covered by FDIC insurance and \$2,800,000 and \$2,300,000 were exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institutions' trust department or agent, but not in the Port's name. The Port does not have a policy for custodial credit risk.

NOTE (4) - PENSION PLAN

All full-time employees of the Port are members of the Louisiana State Employees Retirement System ("System"), a multiple-employer, public employee retirement system (PERS) controlled and administered by a separate board of trustees.

All full time employees are eligible to participate in the System. Benefits vest with ten years of service. Vested employees may retire at (a) any age with thirty years of service, (b) age 55 with twenty-five years of service. A participant's basic annual retirement benefit is equal to \$300 plus 2.5% of their highest consecutive 36 month average salary multiplied by their years of credited service. Participants who became members of LASERS on or after July 1, 1986, are not eligible for the \$300 addition to the annual retirement benefit formula. The maximum annual retirement benefit may not exceed the lesser of 100% of a member's average compensation or certain specified dollar amounts of actuarially determined monetary limits depending upon the member's age at retirement. As an alternative to the basic retirement benefit, a member may elect to receive his retirement benefits under any one of four different options providing for a reduced retirement benefit payable throughout his life with certain benefits being paid to his designated beneficiary after his death. The System also provides death and disability benefits. Benefits are established by state statute.

NOTE (4) - PENSION PLAN (Continued)

The system issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Louisiana State Employees' Retirement System, 7937 Office Park Boulevard, Baton Rouge, LA 70809.

Description of Funding Policy -

Covered employees are required by State statute to contribute 8% of their gross salary if hired on or after 1/1/11 and 7.5% of their gross salary if hired before 7/1/06 to the System and the Port contributes an additional percentage of 29.1%. Contributions to the System during fiscal year ended June 30, 2014, 2013, and 2012 were funded through employee and employer contributions. Employer contributions were \$33,485, \$14,731, and \$8,789, respectively for years ended June 30, 2014, 2013, and 2012. The total payroll of the Port, fully covered by the System, was \$106,981, \$98,020, and \$98,118, for the same periods. Under present statutes, the Port does not guarantee any of the benefits granted by the System. The executive director was in the drop program from April 2010 through March 31, 2013.

NOTE (5) - LEASE REVENUES

The Port negotiates lease-rental and user contracts with companies for the use of the Port's wharfs, docks, land and warehouses. Fees are composed of minimum lease payments and, in certain contracts, additional rates based upon the volume of commodities moved across the docks leased. The total lease and tonnage revenue earned in the fiscal years ended June 30, 2014 and 2013, respectively was \$325,423 and \$317,886.

A summary of current leases follows:

Cabot Corporation

On April 5, 1993 (amended on September 13, 1993), the Port entered into a lease with Cabot Corporation for the use of 5.58 acres of land, more or less which includes a basic rent and one cent per barrel for all material, either incoming or outgoing, moved across the dock. The Port also granted several easements, servitudes, right-of-ways, rights of passage, etc. for Cabot Corporation to conduct its business. The term of the lease is for 5 years from April 5, 1993, with Cabot Corporation having the option to extend the same for 4 additional 5 year terms unless giving notice in writing to the Port 60 days in advance of the end of a particular 5-year term to renew. (The lease is in its fourth renewal period which extends the lease until April 5, 2018.)

Cabot Corporation guarantees a 30,000 barrel minimum per month throughput. Said one cent per barrel charge to accrue on October 1, 1993 and shall be due on a calendar month basis thereafter. Cabot Corporation shall furnish to the Port a monthly throughput report no later than 30 days following the end of the month covered by each report. The additional rent shall be adjusted at the beginning of each option year to reflect the increase in the U.S. Department of Labor, Bureau of Labor Statistics, Consumer Price Index for all Urban Consumers (CPI-U), South Region.

For the fiscal years ended June 30, 2014 and 2013, respectively, Cabot Corporation paid \$25,924 and \$27,032.
